COBB YOUNG REPUBLICANS CONDEMN ACTIONS OF COUNTY GOP

MARIETTA – Cobb County Young Republicans strongly condemn the actions of the Cobb County Republican Party that were taken this week. Thursday, the county GOP chose to censure the current Governor over an election decision that a governor does not have the constitutional authority to change and over his decision to welcome in Afghan refugees. Cobb YRs feel that the decision to censure further divides the party at a critical time.

“Governor Kemp is one of the greatest governors our state has had. He has championed and signed some of the most conservative legislation- including the Heartbeat Bill, which he is continuing to fight for in court today,” Said CYR Political Director Brittany Ellison.

“Governor Kemp kept our state open so business owners and hard-working Georgians could provide for their families. The Governor and First Lady have worked tirelessly toward the ending of human trafficking while fighting for the rights of victims. Their leadership have kept us the #1 state to do business in eight years in a row. It is clear they care deeply about each citizen in this state and I am proud to support them.”

Cobb County Young Republicans will continue to support the incumbent Governor and his policies.
